Trésor Solution Company

Remote

- Supported responsive product flows, reusable UI patterns, and developer handoff specs. **Impact:** delivered 3 MVP release cycles on schedule with zero missing design asset blockers.

SELECTED PERSONAL PROJECTS

UI/UX Design · Responsive Prototype, LuxRoom — Furniture E-commerce Website (do-anh-nghia-uiux-portfolio.vercel.app/case-study-luxroom.html) 2026

- Problem:** premium furniture shopping can hide the practical information users need to judge fit, material, dimensions and delivery. **Solution:** room context → material preference → product evaluation → save / check-out. **Outcome:** responsive prototype connecting contextual discovery, product specifications, Saved Room and checkout.

UI/UX Design · Mobile-first Prototype, Atelier — Fashion E-commerce Website (do-anh-nghia-uiux-portfolio.vercel.app/case-study-atelier.html) 2026

- Problem:** editorial fashion experiences can create desire while making product decisions harder. **Solution:** discover → evaluate → buy, with information density increasing as purchase intent grows. **Outcome:** mobile-first prototype covering collection discovery, product decisions, variants and checkout.

Information Architecture · Responsive Prototype, VAS Education — Website Redesign (do-anh-nghia-uiux-portfolio.vercel.app/case-study-vas-education.html) 2026

- Problem:** prospective families had extensive information but no clear decision path across programs, campuses and admissions. **Solution:** trust → fit → daily reality → action. **Outcome:** responsive prototype connecting brand proof, learning pathways, campus context and admissions into one parent journey.

Decision-support UX · Interactive Prototype, Capital Place — Website Redesign (do-anh-nghia-uiux-portfolio.vercel.app/case-study-capital-place.html) 2026

- Problem:** brochure-style property content did not support practical leasing decisions. **Solution:** place → space requirement → floor context → enquiry, including Space Finder and contextual enquiry flows. **Outcome:** interactive responsive prototype demonstrating a clearer leasing decision-support experience.
