- Translate business requirements into IA, user flows, responsive UI systems and interaction states for client-facing web projects.
- **Outcome:** clearer content structures, more consistent interface patterns and implementation-ready handoff.

#### TIKERA TECHNOLOGY AND BRAND DEVELOPMENT COMPANY

Full-time

UI/UX Designer

12/2025 – 04/2026

- Designed user flows, wireframes and high-fidelity interfaces while defining interaction states and edge cases.
- **Outcome:** improved UI consistency and clearer implementation decisions.

#### TRÉSOR SOLUTION COMPANY

Remote

Intern UI/UX Designer

09/2025 – 12/2025

- Supported responsive product flows, reusable UI patterns and developer handoff.
- **Outcome:** clearer interaction models for product iterations.

### SELECTED PROJECT

#### [LuxRoom – Furniture E-Commerce Website](#)

- **Problem:** furniture shopping often looks premium but hides the practical information users need to evaluate fit, material, dimensions and delivery.
- **Solution:** structured the journey around room context - material preference - product evaluation - save / checkout.
- **Outcome:** built a responsive ecommerce prototype connecting contextual discovery, product specifications, Saved Room and checkout into one coherent experience.

#### [ATELIER – Fashion Ecommerce Website](#)

- **Problem:** editorial fashion experiences can create strong brand desire while making product discovery and purchase decisions harder.
- **Solution:** increased information density with user intent across discover → evaluate → buy, keeping editorial expression early and transactional clarity later.
- **Outcome:** implemented a mobile-first prototype covering collection discovery, product decisions, variants and checkout while preserving a consistent luxury visual language.

#### [VAS EDUCATION — Redesign Website](#)

- **Problem:** prospective families had access to extensive school information, but lacked a clear path through programs, campuses, student life and admissions.
- **Solution:** reorganized the experience around parent questions: trust → fit → daily reality → action.
- **Outcome:** created a responsive prototype connecting brand proof, learning pathways, campus context and admissions into a clearer decision journey.
