PROJECT

ATELIER – Luxury Fashion E-commerce Website

- **Role** : Business Analyst & UI/UX Designer
- **Type** : Fashion E-commerce Website
- **Tools**: Figma, HTML/CSS/JavaScript
- **Link Design Prototype**: [Figma](#)
- **Link Source Code**: [GitHub](#)

1. Analyzed luxury fashion e-commerce problems such as cluttered layouts, weak storytelling, catalogue scanning, and checkout trust.
2. Defined stakeholder needs, MVP scope, product flow, and future production features.
3. Designed homepage, shop, product detail, wishlist, cart, checkout, account, blog, and about pages.
4. Built a monochrome editorial experience connecting brand storytelling with e-commerce conversion.

LuxRoom – Luxury Furniture E-Commerce Platform

- **Role** : Business Analyst & UI/UX Designer
- **Type** : Furniture E-commerce Website
- **Tools**: Figma, HTML/CSS/JavaScript
- **Link Design Prototype**: [Figma](#)
- **Link Source Code**: [GitHub](#)

1. Researched furniture e-commerce pain points including product visualization, trust, delivery, product details, and checkout hesitation.
2. Defined business goals, user personas, product goals, MVP scope, and future production requirements.
3. Designed product discovery, product detail, cart, checkout, profile, contact, and newsletter flows.
4. Created a luxury-minimal shopping experience focused on clarity, trust, and conversion.

FlowCRM – Sales & Customer Management System

- **Role** : Business Analyst & UI/UX Designer
- **Type** : CRM / Sales Management System
- **Tools**: Figma, HTML/CSS/JavaScript
- **Design Prototype**: [Figma](#)
- **Source Code**: [GitHub](#)

1. Analyzed CRM workflows from leads, customers, deals, tasks, appointments, messages to reports.
2. Defined user personas, MVP scope, business problems, feature modules, and problem-solution mapping.
3. Designed KPI dashboard, Kanban pipeline, customer tables, task priority views, and reporting screens.
4. Converted fragmented sales operations into clear requirements, user flows, and structured UI layouts.
