PROFILE

UI/UX Designer focused on turning complex product ideas into clear, calm and usable digital experiences. I work across information architecture, user flows, wireframes, high-fidelity interfaces and design systems, with a strong interest in thoughtful interaction details.

EXPERIENCE

UI/UX Designer Feb 2026 — May 2026
Tikera Technology and Brand Development Company *Ho Chi Minh City*

- Designed and refined product flows, screen structures and interface patterns for digital products.
- Translated product requirements into user flows, wireframes and high-fidelity interface directions.
- Collaborated with team members to clarify interaction behavior and improve design consistency.

Intern UI/UX Designer Jun 2025 — Dec 2025
Trésor Solution Company *Remote*

- Supported wireframes, user flows and interface iterations across responsive product experiences.
- Helped structure screen behavior, edge cases and reusable interface patterns with the product team.

SELECTED UI/UX WORK

Product design / SaaS workspace, StudioOS (ngh1aa.github.io/StudioOS) 2026

- Designed a calm project workspace for small creative teams, bringing projects, tasks, reviews, calendar and notes into one structured interface.

Mobile-first commerce concept, Atelier (ngh1aa.github.io/Atelier) 2025–2026

- Shaped a mobile-first fashion experience around product discovery, editorial hierarchy and a focused path from browsing to purchase.

Responsive furniture experience, LuxRoom (ngh1aa.github.io/LuxRoom) 2025–2026

- Designed a responsive furniture experience centered on room context, material language, product detail and intentional exploration.
